## Objective

Eager Computer Science student specializing in Cyber Security, skilled in HTML, CSS, React, Node.js, and MongoDB, seeking an internship to apply and enhance full-stack development expertise while contributing innovative solutions to web-based projects.

## Professional Experience

### Intern at Suvidha Foundation

Remote

Web Development Intern, Suvidha Foundation | November 2023 - December 2023

- Developed an innovative appointment scheduling system, reducing processing time by 30% and improving efficiency in service delivery.
- Designed a responsive web interface for a donation platform, resulting in a 20% increase in online donations and broader accessibility across devices.
- Collaborated cross-functionally with designers, developers, and project managers to successfully launch a community outreach portal, reaching 500+ individuals within the first month.
- Demonstrated strong problem-solving skills by troubleshooting and resolving technical challenges, minimizing system downtime by 25%.

## Projects

### Blog Application

COLLECTION OF BLOGS FOR DEVELOPERS

[Link](#)

- Developed a single page application using Appwrite and Markdown development blogs
- Used static site generation resulting in faster load time and increasing efficiency

Tech Stack : Appwrite , React , JavaScript

### Printovert

A E-COMMERCE PLATFORM ALLOWS TO PRINT CUSTOM ORDERS

[Link](#)

- Developed a entire User authentication system and maintained production grade code
- Implemented canvas on top of products so that users can design and order that product

Tech Stack : Node , Mongo dB , express, React ,

### X-AI

AI IMPLEMENTED PLATFORM

[Link](#)

- The Chat GPT implementation with Google Gemini API successfully demonstrated proficiency in leveraging advanced AI technologies to create interactive and engaging user experiences.

Tech Stack : Google Gemini API, Next.js , React.js JavaScript/Node.js , HTML/CSS

## Education

### Shree Vaishnav Institute of Technology

Indore , India

Bachelors of Technology in Computer Science in Specialization with Cyber Security

August 2022 - May 2026

## Technical Skills

Front-end Development: HTML, Tailwind CSS , React, Redux, Next.js, TypeScript, javascript, CSS

Back-end Development: Node.js, Express.js, web socket, web RTC , redis

Version Control & Tools: Git/GitHub, Docker, Linux

Additional Programming Languages: C/C++, Python, JavaScript

Databases : SQL , mongoDB
